

# BOATS FOR THOSE

# WHO LOVE BOATS

The partnership between Icarai and famous Naval Architect François Vivier aims at offering a line of classic, yet modern, boats up to 30 feet, available in kits or ready to sail.

## MORBIC

**Morbic** is a smart clinker dinghy available in two sizes : 7'6" and 9'4". She is perfect as a tender for a classic yacht or a romantic sail on flat water...

## EBIHEN

Inspired from traditional fishing boats of the Channel, **Ebihen** is a robust and stable boat. Available with four different rigs she has an outboard well and a steel centreboard.

## ABER

**Aber** is the typical "sail and oar" boat. Light and simple to sail and trail she is a very versatile craft with a 14'2" length. She can be luxuriously built round bilged or plywood clinked. Aber is one of the first and more appreciated "sail and oar" craft in France.

## TOULINGUET

**Toulinguet** is a modern classic 27'9" long and 9' wide yacht. Available as a bermudian sloop or a gaff cutter she is built from plywood and epoxy. With her long keel and charming lines, she'll give us a very special experience at sea.
